

Schedule subject to change.

Monday, March 3, 2003										
	Osceola CD	Sun A	Sun B	Sun C	Sun D	Tampa 1, 2 & 3	Sarasota 1, 2 & 3	Osceola 1 & 2	Osceola 3 & 4	Osceola 5
8:30 am - 10:30 am	General Session <i>Alfred Chuang</i> BEA Systems, Inc. <i>Carly Fiorina</i> Hewlett-Packard Company <i>John Underkoffler</i>									
11:00 am - 12:00 pm		Introducing BEA WebLogic Workshop 8.1	Placing Entitlements on BEA WebLogic Portal Resources	dev2dev Developers' Tips and Tricks for EJB Development	Enabling the Real Time Enterprise with BEA Liquid Data for WebLogic	BEA WebLogic JRockit: Best of Breed JVM	Overview of the BEA WebLogic Security Framework	BEA WebLogic Server Production Diagnostics and Troubleshooting	BEA Tuxedo: New Capabilities and Roadmap	Diversifying Platforms for Increased Flexibility and Lower Costs
1:15 pm - 2:15 pm		Virgin Mobile USA- Delivering on the Virgin Experience Through Cellular	BEA WebLogic Integration Adapter Strategy and Roadmap	BEA WebLogic Server New Capabilities and Roadmap	Measuring ROI from an Integration Solution	Extending the BEA WebLogic Platform	Web Apps Made Easy with BEA WebLogic Workshop	Web Services Standards Outlook	Integrating Content Within and Beyond the Enterprise	Building EJB 2.0 CMP Applications with Borland JBuilder and BEA WebLogic
2:30 pm - 3:30 pm	Technical Keynote <i>Adam Bosworth</i> BEA Systems, Inc.	Building a Better Portal: My Yahoo! Enterprise Edition and the Web Logic Portal featuring Network Appliance		Maximizing the Performance of JDBC	The BEA WebLogic Subplatform: HW, OS, JVM, DB					
3:45 pm - 4:45 pm		BEA WebLogic Integration 8.1 Architecture & Features: A New Approach	BEA WebLogic Server Clustering Architecture and Technology	BEA WebLogic Portal Technical Q&A	BEA WebLogic Platform: New Capabilities and Roadmap	Java in a 64 bit World	Understanding the Value and Pitfalls of Open Standards	25 Cool Features of BEA WebLogic Workshop	Building a Web-Based Point of Sale System with BEA	Leveraging Reusable Assets to Reduce Total Cost of Ownership
5:00 pm - 6:00 pm		BEA WebLogic Portal New Capabilities and Roadmap	True Convergence Defined: Integration Meets Application Development	Configuring, Developing and Deploying Enterprise Application Using BEA WebLogic Platform	High Performance CMP	Getting to Grips with Xquery	BEA WebLogic JRockit Tuning and Coding Best Practices	The BEA WebLogic Workshop Custom Control Model	A Road Map to Implementation Success: Huntington.com and Beyond	Automating the Deployment and Management of BEA WebLogic

Schedule subject to change.

		Tuesday, March 4, 2003								
Osceola CD		Sun A	Sun B	Sun C	Sun D	Tampa 1, 2 & 3	Sarasota 1, 2 & 3	Osceola 1 & 2	Osceola 3 & 4	Osceola 5
8:30 am - 9:30 am	General Session <i>Olivier Helleboid</i> BEA Systems, Inc. <i>John Davies</i> Intel									
9:45 am - 10:45 am		BEA WebLogic JRockit New Capabilities and Roadmap	Building Secure Web Services with BEA WebLogic Workshop 8.1	Building an Enterprise Application with Components	Today's Reality: Reusable Real-Time Data Aggregation	BEA WebLogic Portal Entitlements	Accessing Enterprise Data Using the BEA WebLogic Platform	Supporting Single Sign-On by Integrating Kerberos security with BEA Tuxedo	Productivity and Satisfaction with Documentum and BEA WebLogic Platform	Optimizing BEA WebLogic Server Performance on Solaris
11:00 am - 12:00 pm		Solving the Java to XML Problem with XMLBeans	Mainframe Integration: Reusing the Legacy	BEA WebLogic Portal - Accelerating the Delivery of Applications	Performance Tuning BEA WebLogic Server using Runtime MBeans	Manipulating Persistent Data Using EJB, JDO and JDBC Row Sets	Configuring and Administering Security	Implementing Workflows with Java	Building an Advanced e-Government Infrastructure on the BEA WebLogic Platform	JMS: New Capabilities and Roadmap
1:15 pm - 2:15 pm		BEA WebLogic Integration: New Capabilities and Roadmap	Making the Most of EJB Load Balancing	Leveraging BEA WebLogic Portal in a Customized Environment	BEA WebLogic JRockit Adaptive Garbage Collection	Clustered JMS	Best Practices for BEA WebLogic Portal	BEA Tuxedo: Performance and Scalability	BEA WebLogic Portal Content Management Performance	Bank of New York's Mainframe Connectivity with NEON and BEA
2:30 pm - 3:30 pm	Technical Keynote <i>Scott Dietzen</i> BEA Systems, Inc.	Delivering the Truth About Your Company's Operational Performance with Hyperion and BEA		BEA WebLogic Security Framework: Deep Dive	Transforming XML Data with Xquery					
3:45 pm - 4:45 pm		Packaging, Deploying, and Migrating BEA WebLogic Platform Domains	Creating Reusable Components	BEA WebLogic Portal and the Integrated Enterprise	Orchestrating Web Services with BEA WebLogic Integration 8.1	BEA Tuxedo Integration Solutions	BEA WebLogic Portal Presentation Services	Monitoring BEA WebLogic Server with MBeans	Enterprise-Grade Web Services Architectures and Implementations	Improving Performance and Cutting Costs with BEA and Intel

Schedule subject to change.

		Wednesday, March 5, 2003								
		Sun A	Sun B	Sun C	Sun D	Tampa 1, 2 & 3	Sarasota 1, 2 & 3	Osceola 1 & 2	Osceola 3 & 4	Osceola 5
9:45 am - 10:45 am		Deconstructing BEA WebLogic Workshop Web Services	Managing Portals Through Delegated Administration and Entitlement	Making SOAP Reliable Over HTTP	BEA Liquid Data for WebLogic New Capabilities and Roadmap	Integrating Foreign JMS Providers with BEA WebLogic Server	Understanding the BEA Thin IIOP Client	BEA Tuxedo Security: Capabilities and BEA WebLogic Server	Getting the Benefits of Components with J2EE	Web Services Management: Monitoring vs. Mediation
11:00 am - 12:00 pm		Developing and Administering BEA WebLogic Server with Ant	What's New in EJB 2.1?	BEA WebLogic Integration Performance Tuning	BEA WebLogic Workshop: New Capabilities and Roadmap	Making Java Faster Than C	Understanding the BEA WebLogic Tuxedo Connector	BEA WebLogic Portal Content Management System	Implementing a World-Class Portal for the Brokerage Industry	Technologies for Mapping Application Business Logic Across the Corporate Infrastructure
1:15 pm - 2:15 pm		BEA WebLogic Portal Framework Internals	Message Brokering in BEA WebLogic Integration 8.1	A Big Frosty Mug of BEA Liquid Data for WebLogic	Session Persistence: Tips & Tricks to Improve Performance	Evaluating Real ROI of Web Services and BEA WebLogic Workshop	BEA WebLogic Server Configuration and Change Management	Multi-Byte Character Support with BEA Tuxedo	BEA WebLogic Workshop Controls for ISVs: Documentum Case Study	Universal Application Network & BEA
2:30 pm - 3:30 pm		Advanced Features in Weblogic 8.1 JDBC	The Making of MyBEA: BEA's IT Architecture and Infrastructure	Extending BEA WebLogic Web Services to Palm(TM) Handhelds	EJB Performance Tuning	Maximizing BEA WebLogic Application Performance	Tuning BEA WebLogic Portal	Managing BEA WebLogic Server with WLShell Scripts	XQuery for SQL Experts	The CGE&Y Point of View on Technology Executive Agenda
3:45 pm - 4:45 pm		High Performance CMP	Solving the Java to XML Problem with XMLBeans	Solving Financial Integration Challenges with BEA and Mercator	Today's Reality: Reusable Real-Time Data Aggregation	How Synchronization is Critical to Solving the Distributed Order Management Challenge	Introducing BEA WebLogic Workshop 8.1	Tools for the Portal Warrior	BEA WebLogic Server Clustering Architecture and Technology	Overview of the BEA WebLogic Security Framework
